LOUISIANA TAX COMMISSION

James T. Means, Jr., Chairman

Mrs. Wilma Lockhart, Member

Senator Charles Gaspard, Member

December 1, 1959

PREFACE

The volume of records accumulated each year by the Louisiana Tax Commission has been increasing to such an extent that drastic measures were called for. In October, 1959 the Commission consulted with the Director of the State Archives and Records Commission. On the basis of a resurvey of our records holdings, the Tax Commission proposed and the State Archives and Records Commission approved, a program for the elimination of some 1200 cubic feet of records under authority of R. S. 1950, 44:36 (the 6 year retention law) and R. S. 1950, 44:39 (the microfilm law). Also taken into account was R. S. 1950, 47:1989, para. 2, declaring the bulk of these records not open to public inspection.

This is the first of a series of guides to microfilmed records of the Louisiana Tax Commission. It is being issued in a limited edition for the convenience of members of the Commission staff.

It must be emphasized that these microfilmed records are not available for public inspection under terms of R. S. 1950, 47:1989, para. 2.

GUIDE TO THE RECORDS OF THE LOUISIANA TAX COMMISSION

NO. 5

ASSESSMENT ROLLS 1958

(Caddo & Orleans excepted)

Prepared by the
State Archives and Records Commission
John C. L. Andreassen, Director

LOUISIANA TAX COMMISSION
James T. Means, Jr., Chairman
Mrs. Wilma Lockhart, Member
Senator Clifton Gaspard, Member

Baton Rouge, Louisiana
February 1960

PREFACE

Microfilming the Assessment Rolls in the office of the State Comptroller (State Auditor then), began in April 1958, and has been continued with highest SARC priority to this date. Initially a Recordak Model D camera, using 35 m.m. film was used and the plan was to retroactively film the rolls in the alphabetical order of the parishes back to the year 1918. The earlier rolls in each parish ran across two full pages and required a larger camera. When the SARC was enabled in fiscal years 1958-1959, to acquire a Recordak Model C-3 Camera, filming on the rolls for year prior to 1918 was initiated in the same alphabetical order of parishes.

Late in 1959, the Louisiana Tax Commission requested the SARC to make available the 1958 film in positive copy, in order to reduce records space requirements and eventually to eliminate the need of the various parish assessors to supply the extra paper copy of the rolls to the Louisiana Tax Commission. After the request of the Tax Commission, and with the approval of the State Comptroller, all non-filmed 1958 rolls were given highest filming priorities. This guide then, is designed to serve the Tax Commission for the 1958 positive rolls in its collections, and it of course, serves to locate 1958 negatives in the State Comptroller's collections as well.

Filming of the 1959 rolls will be in the alphabetical order of the parishes, with nothing but 1959 rolls on such films. When the 1959 rolls have been completely microfilmed, the SARC will revert to filming retro-active materials according to the original plan.

This guide is being issued in a limited edition for use in the Louisiana Tax Commission and the State Comptroller's office. Guides to the earlier assessment rolls will continue to issue on a parish basis in the manner of those guides already issued for microfilmed assessment rolls of Acadia, Allen, Ascension and Assumption Parishes.

John C. L. Andreassen
Director, State Archives and
Records Commission

Baton Rouge, Louisiana
February 10, 1960
